ABOUT ENTRUTECH

The What, Why & How of things.

We want to make a difference in your business. Our team is here to assist you with the improvement of your business efficiency and productivity.

Our clients aren't just clients, they become business partners. We value our client's businesses and we want them to succeed.

We provide complete Business IT solutions to our clients, the total Business technology life-cycle. Our team strives to exceed customer expectations on quality, response times and resolution times.

Our reputable business focus enables us to assist with our clients' effectiveness and efficiency in their businesses and therefore improving business and profitability.

We believe in "Doing the right things, right". We add value to our client's businesses by assisting with budgeting, risk analysis, planning & implementation to ensure that we provide you with long term IT solutions that will benefit your business.

EntruTech has over 20 years of experience in the IT industry. This enables our team to provide you with the best possible advice when it comes to your internal IT infrastructure & to ensure that your business' IT infrastructure is up to date and stays up to date with international IT standards.

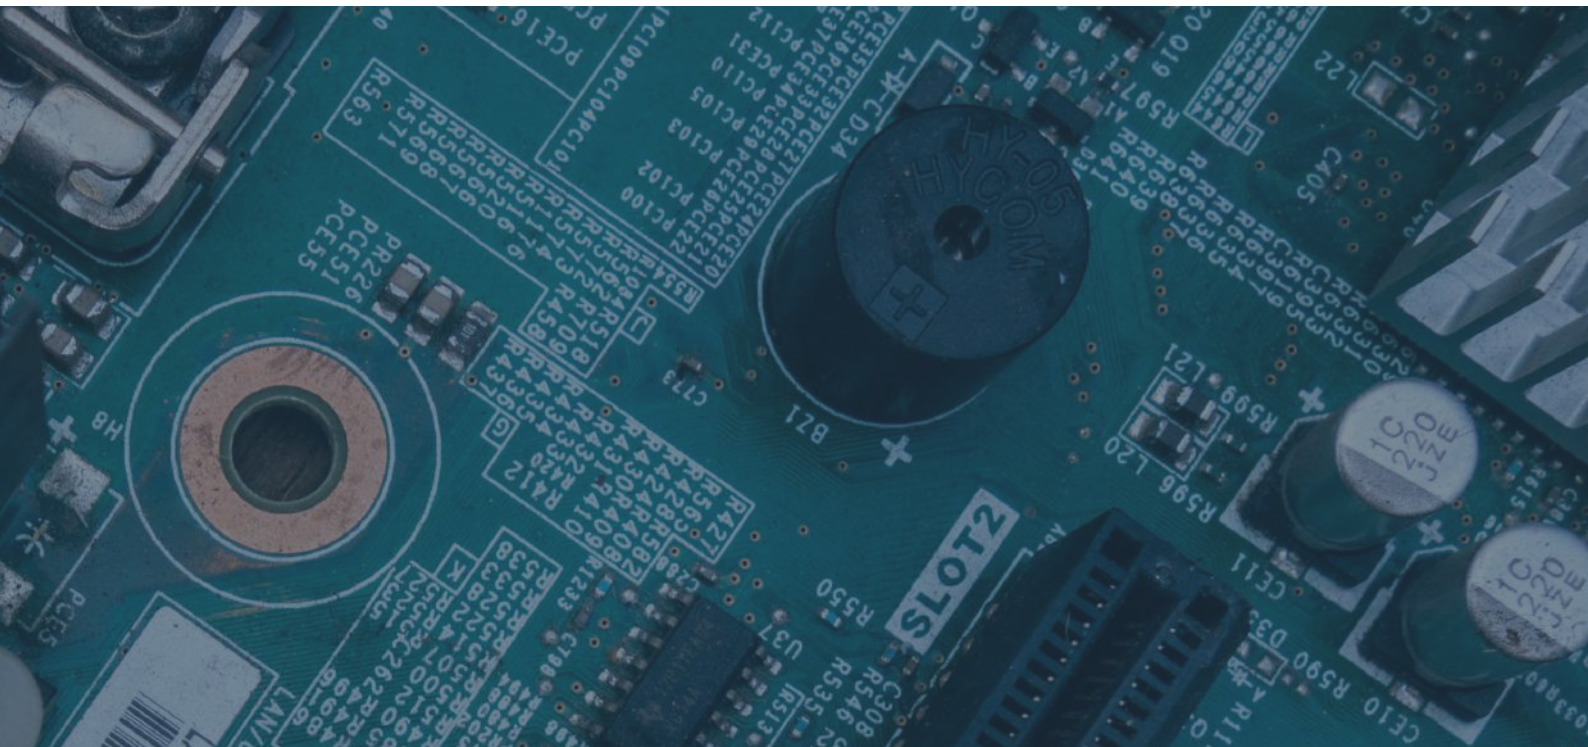

Our Vision.

To create optimal Business Operational Excellence for businesses and to empower our clients to achieve more.

Our Mission.

Our mission is to provide businesses with world class IT services and to assist with improvement on their business efficiency, continuity and productivity.

OUR SERVICES

We provide our clients with only the best, for this reason we've developed our service portfolio to cater to all your business IT requirements. This way you can get all the services you require from one service provider.

WHAT OUR CLIENTS ARE SAYING

BKD OUDITEURSPRAKTYK

“For the past 6 years the practice has been relying on EntruTech for guidance and support. Over the period, an extremely trusted relationship has been built between the two parties.

With a proactive monitoring system and professional support of international standards, the practice can boldly recommend the services of EntruTech.”

CREST CHOICE CHICKEN

“In Short – Julle maak ons lewe 100% makliker en ek kan nie ‘n Life before Entrutech imagine nie.

Baie dankie vir jou en jou span wat hierdie alles maak werk vir ons.

It’s very difficult to find good service provider in this day and age and almost completely impossible to find a company that share the same values as yours.

Entrutech is one of those very rare companies that promotes a long-term relationship with their clients, offering fast and reliable service

We’ve had the best experience with Réno and his team – Always quick to respond to issues, not that we have had many issues since they’ve taken over our entire IT infrastructure, always friendly and eager to assist.

One of the great offerings is that they’re your One-Stop-Shop, not just IT support, but anything from finding the best Internet Service Provider, the best software for your company, designing and hosting of websites and the list goes on.

It feels like a weight has been lifted off our shoulders since we have partnered with Entrutech and we will recommend them without a doubt.”

M-TECH INDUSTRIAL (PTY) LTD

“Since the first day of doing business with EntruTech, we have been impressed with the pro-active risk management of our IT system. Réno and his team delivers an effective, professional service making the day-to-day management of our IT systems a pleasure.”
